

LITTLE EXPECTED
FROM CONGRESS.

Coming Session Which Meets November 9 Is Not Promising of Great Achievements.

NO FINANCIAL LEGISLATION.

Tariff Will Not Be Touched So There Will Be Nothing to Do but Pass Appropriation Bills and Fill Up Record.

REPUBLIC SPECIAL.

Washington, Sept. 26.—The incoming session of Congress, which will meet November 9, according to the present programme, is not promising of great achievements. It has been, almost invariably, the rule of the Republican party to attempt very little important legislation in the Congress preceding a presidential election, and the outlook is that this will be adhered to, as far as practicable in the Fifty-eighth Congress.

The prospective Speaker, Mr. Cannon, has conferred with the Treasury officials, and the result, as announced on apparently good authority, is that there will be no financial legislation. No tariff legislation is possible, and the prospect is that very little will be done beyond passing the current appropriation bills and incorporating many speeches in the congressional record, so that they may be circulated among the faithful at the expense of the Government.

In marked contrast with the prospect for congressional inactivity is the outlook for the coming social season. It is the custom of Washington to enter upon a decidedly strenuous social life during the last session of an administration. This may be because the officials of the executive departments desire to make the most of what may be their last winter at the capital. Already social affairs are brightening up, and immediately after the return of the President, Monday, Washington will begin its whirl of semi-official entertainments, to last till the beginning of Lent.

SAFETY LAMP THE GOAL
OF BRITISH INVENTORS.

SPECIAL BY CABLE TO THE NEW YORK HERALD AND THE ST. LOUIS REPUBLIC. London, Sept. 26.—(Copyright, 1903.)—Interest has been revived at the grocery exhibition in Agricultural Hall in a prize which for three years has gone begging. It is offered to the inventor of the best-constructed safety lamp, the wholesale price of which is not to exceed \$5, in which mineral oil can be burned, and the chief merit of which must be absolute safety.

The prize first offered was £20. This year it was increased to £120. Eighty-four lamps have been sent in for the competition. Most of them are of the ordinary type, for the purpose. Some have fine wire gauze folding constructed over an oil holder, the beams of which were to collapse when the burner was at an angle and extinguished the flame. It would require a machine to set them right.

Another was simply itself, consisting of two enameled breakfast cups, one to hold the liquid, the other the wick in a sea-water best known to the inventor, in a container. It would not be hard to picture the contrivance being used as a breakfast lamp for a family.

The reason for this competition is the fact that the number of accidents arising from the upsetting of mineral oil illuminants in the United Kingdom has been enormous, and in London alone, in 1891, there were nearly 400 deaths and 1,000 injuries. A large proportion was due to defective paraffin lighting arrangements. Londoners are getting wise to the fact that Mrs. O'Leary's cow kicked over a lamp.

PROGRAMMES FOR WINTER.

Macon Folk Club Will Provide Entertainment All Season.

REPUBLIC SPECIAL. Macon, Mo., Sept. 26.—At a meeting of the Folk Club last night plans were made for winter programmes that cannot fail to interest. There will be a diversity of entertainment at each meeting. There will be debates on political topics, a school of civil government, a "Junior Legislature" and speeches by prominent orators of Missouri and other States.

There is no lack of enthusiasm among the Folk adherents, and they intend to make their weekly meetings of such a nature that the people cannot afford to miss them. John Fleming is chairman and M. C. Perkins secretary.

GRAND JURY TO CONVENE.

United States District Attorney Wishes to Avoid Delay.

The Federal Grand Jury for the November term of the United States Court will meet October 6, a month earlier than usual this year. During the May term, United States District Attorney Dyer requested Judge Elmer B. Adams to authorize the summoning of the Grand Jury a month before the November call of the United States Court in order that criminal matters, which were on hand, might be brought to the attention of the Grand Jury before court convened.

The Grand Jurors have been selected by United States Marshal Moore and several summoned. One of the most important matters which will be brought immediately to the attention of the body

will be the investigation of the naturalization frauds alleged to have been carried on in a wholesale manner in St. Louis.

Another was simply itself, consisting of two enameled breakfast cups, one to hold the liquid, the other the wick in a sea-water best known to the inventor, in a container. It would not be hard to picture the contrivance being used as a breakfast lamp for a family.

Steel Frying Pans, Special—Monday. 9c

REPUBLIC SPECIAL. New York, Sept. 26.—The proceedings begun by the Watershed Commissioners of New York to evict more than a hundred farmers, merchants and poor people who are occupying lands that have been condemned to prevent the pollution of the city's watershed in Westchester County, have reached the stage where forces of men are ousting persons from their homes and burning the buildings.

William Rockett, a farmer, 70 years old, who lives near Katonah, refused to move and employees of the water supply department burned his barn. Then they carried the furniture out of his house and burned his residence.

An old woman who couldn't walk was carried out of the house, and the farmer, who was ill, and his daughter, were driven out. They set up house-keeping under a big apple tree and ate plain food of passersby, until neighbors gave them shelter. A score of farmers in the Unisco Valley have also been driven from their homes.

Brother Baldwin, the superior of the City of St. Joseph's College, near Amawalk, one of whose buildings was burned, announces that the priests of the parish, with the exception of one, are all ready to leave the college buildings, pending a decision of the department. He also broke up the big dairy business of George Nelson. Mr. Nelson has been awarded \$2,000 for his farm, but he defies any one to put him out.

REPUBLIC SPECIAL. Washington, Sept. 26.—"Senator Gorman," said Senator Bailey of Texas, "is the best-equipped man we have. There are people who, when they consider a person as a candidate, say 'Can we win with him?' I say 'Ought we to win with him?' That is the real test. With Gorman we ought to win; whether we do or not is another matter."

"The Democracy has no chance in the Middle West except in Illinois. With proper organization Gorman can carry Illinois. In the far West he can carry Utah and Montana, and with these he can win. He can beat Roosevelt in New York easily. I believe he can carry Connecticut and New Jersey. Senator Gorman is a man of strength and character. The Democrats can nominate no better, as things politically look now."

11:45 A. M. for Chicago Via Illinois Central fast train, Daylight Special, on and after Sept. 27th.

OBTAINED DIVORCE TO WED.

Mrs. Morris Married 15 Minutes After Decree Is Granted.

REPUBLIC SPECIAL. Macon, Mo., Sept. 26.—Judge Shelton has announced that no further divorce decrees would be entered until the last day of Circuit Court.

The reason for the rule was that Mrs. Drury Eveline Morris, who had obtained a divorce from William Morris on the ground of desertion, was married fifteen minutes later to J. E. Grove.

It was Mrs. Morris's third matrimonial venture, and she said that, while she had no intention of offending the court, she could not for her life see any end that could be gained by waiting several days to remarry.

\$2.50 Round Trip to Evansville, Ind., 11 p. m., Saturday, Oct. 3. Louisville and Nashville Railroad.

BRIDGE BEAM SAVES CAR FROM A PLUNGE.

7th & FRANKLIN AVE.

more than three years, Mrs. George Todd of Stanhope is rejecting in the new-found power of locomotion which came to her suddenly.

It was near dinner time, and the invalid had been reading an article in which it was said that if a person desired anything very much, in fact, desired it above all else, that thing would be accomplished. She desired very much to walk, and just at that time desired nothing so much as to walk to the dinner table and meet her family. All at once she felt that she was able to walk, and rising from her chair, walked steadily to the table, much to the astonishment and delight of her family.

After dinner she walked back to her chair again and felt better than for three years. She said that she has now recovered the use of her limbs, and is greatly rejoiced.

REPUBLIC SPECIAL. New York, Sept. 26.—This time it is the law that robs the stage and not Hymen. Miss Lou Middleton, known and admired over from footlights, has resigned from "A Girl from Florida" to study law in the University of Chicago.

It was Miss Middleton who came back from England last year with the medal voted to her as being the most beautiful chorus girl. Now she is going to give it all up and devote herself to three years of study in the University of Chicago.

She has informed her managers, the Shubert brothers, that she is really in earnest and hopes some day to practice law. She left the company in Chicago yesterday, where it is now playing at the Garrick Theatre.

REPUBLIC SPECIAL. New York, Sept. 26.—Louisiana Dieder, 5 years old, of No. 139 Prince street, was fatally burned by a fire from catching fire from matches with which she was playing while her mother was absent. She died in the St. Vincent Hospital.

REPUBLIC SPECIAL. Washington, Sept. 26.—"Senator Gorman," said Senator Bailey of Texas, "is the best-equipped man we have. There are people who, when they consider a person as a candidate, say 'Can we win with him?' I say 'Ought we to win with him?' That is the real test. With Gorman we ought to win; whether we do or not is another matter."

Workmen

Do not be discouraged when the terrible rupture attacks you. Do not leave your employment and resign yourself to fate, for that fate, dreaded as it is, is purely imaginary.

You can keep on at your employment, no matter how severe it is, or how badly you are ruptured, and without spending one penny till you are permanently cured. I have treated over 10,000 cases of rupture or hernia during my 15 years' practice.

Eight thousand of these

RUPTURE

Victims lived in St. Louis alone, and out of that great number not one case has Dr. Lewin failed to cure. That is why he emphasizes that unfortunately who give up are surrendering to an imaginary foe, because with his simple treatment, known all over the land as the "W. A. LEWIN METHOD," every victim can be restored to their former strength in from 3 to 5 weeks.

THE FACT IS THAT THE CURE BEGINS WITH THE VERY FIRST TREATMENT, AND DR. LEWIN GUARANTEES THAT IT WILL NOT INTERFERE WITH YOUR WORK. Women can attend to their household duties as usual; the men to their employment.

YOU NEED NOT PAY ONE PENNY TILL CURED.
